PROFESSIONAL TRAINING TECHNOLOGIES

FOR SHOOTERS BY SHOOTERS

First and foremost, we are shooters.

Laser Ammo is owned and operated by Israeli and US law enforcement and military veterans who are dedicated to providing innovative training solutions at an affordable price for shooters of every level.

Our product philosophy is simple: provide affordable, high quality products, that will allow any level of shooter to train anytime anywhere! Among our customers are military units, law enforcement agencies, NRA instructors, security personnel, and thousands of private firearms owners around the world.

Laser Ammo is the worldwide leader in laser-based firearms training. With R&D in Israel, and sales offices both in the USA and Europe, we are able to offer our training solutions worldwide.

Our technical team works tirelessly to bring our customers the most advanced training technology and highest quality available with one singular goal: creating better shooters.

Through our expansive product line, including (but not limited to) SureStrike™ “eye safe” laser training cartridges, electronic targets, and Smokeless Range® shooting simulators, our customers are able to create a custom training regimen that fits their specific goals and needs, fitting any budget while bringing the range right into their very own home/classroom.

That's who we're working for, this is what we do:

- We will always feature the newest and most advanced technology.
- We will always provide the best value while maintaining the highest quality.
- We are here to listen, guide, and assist you in every way we can.
- We look to inspire and be inspired by our customers.
- We will stand behind our products with a money-back guarantee

All Lasers in this catalog comply with the latest
EU Eye-Safe directives.

ABOUT DRY FIRE TRAINING

REPETITION IS THE KEY TO MUSCLE MEMORY

1 WEEK
20%

Shooting is a deteriorating skill. In as little as one week after leaving the range, the average shooter's skills can diminish by 20%.

For a shooter, repetition can represent a considerable amount of ammunition to perfect a trigger squeeze.

With the high cost of ammo, dry-firing represents an affordable training alternative.

Dry Firing allows you to continually practice, maintain and improve your shooting skills while away from the range.

Get the Laser Ammo Advantage with SureStrike™. Practicing your stance, presentation, sight alignment, sight picture, breath control, trigger squeeze & follow through has never been easier.

Those of you who are not able to make it to the range as often as you would like, can still practice the fundamentals of shooting, through dry-firing in the convenience of your home or office. Dry-firing is the single most efficient and safest way to increase your skills regardless of your experience level. It allows you to increase proficiency with your draw, speed up your sight acquisition, gain better trigger control, increase speed and accuracy of your reloads, smooths and speeds up your transitions, assists in breath control and heart rate, and allows you incorporate basic movements. Starting out slow ensures that your fundamentals are flawless through repetition, before increasing speed or distance to your targets.

By continuously repeating these drills without errors, you will build "muscle memory" and will allow the techniques to ingrain in to your subconscious. This will allow for your actions to be duplicated automatically when you return to the range or if you are ever thrust in to a shooting incident.

The SureStrike™ is a high-end laser training system for pistols, rifles and airsoft that assists all levels of shooters in building and maintaining the correct firearms skills, by emitting a laser pulse simulating a bullet's impact point. The SureStrike™ turns the typical dry firing session into a powerful and rewarding learning experience where the shooter can easily recognize and correct any errors ingrained in muscle memory.

The SureStrike™ helps shooters obtain a stable grip, control trigger squeeze, reduce response time and aid in obtaining perfect sight alignment and sight picture.

i-MTTS

INTERACTIVE MULTI-TARGET TRAINING SYSTEM

A man in a white shirt is shown from the side, aiming a black rifle. In the background, a tan sofa has several glowing orange circular targets on it. A red circle with white text is on the right side of the image.

New for
2020 System
Controller for the
i-MTTS!

6

The Interactive Multi-Target Training System ("i-MTTS") is a fully interactive training system that enables wireless communication allowing each of the i-MTTS targets to "communicate" with each other to engage the shooter in a wide array of training modes, including standalone shooting, steel plate shooting, tactical training/chase the ball, shoot/no shoot, double speed shoot/no shoot, and double tap.

The i-MTTS targets do not require the use of a computer or app, and run simply off of AAA batteries, which are included. Each base unit also comes with 4 assorted targets, varying in both shape and size. These targets are designed to be used with the SureStrike™ Laser Cartridges (in either red or IR) in the shooter's own double action pistol, or one of Laser Ammo's Advanced Laser Training Pistols/Recoil Enabled Training Guns.

New for 2020 is the i-MTTS System Controller, offered as a standalone unit or in a combo package. This controller serves as a wireless control unit which allows the user to control from a distance their target systems. A simple button will rotate between the different training programs, view, scroll and toggle between 'split time' and 'total time' performance results, set automatic or manual 'restart, choose 'random' or define the delay time for the 'start signal, define needed 'hits' on target, set training program length, set preferred sound and light response, extend targets range, define sub groups, and more...

LASERPET II

PERSONAL ELECTRONIC TARGET

8

The LaserPET™ (Personal Electronic Target) I and II, are standalone laser activated reactive targets, that will dramatically enhance your shooting skills with immediate feedback for each shot.

The LaserPET™ allows any level of shooter to practice response & draw time, accuracy, reloads and much more, with up to six interactive training programs helping the shooter to practice the five fundamental drills set by the NRA, by engaging a target anytime, anywhere.

The LaserPET™ can keep track of hits, act as a shot timer and assist the shooter to speed up his or her follow-up shots and reload times. The LaserPET™ gives the shooter instant audio and visual feedback when a hit occurs on the easy-to-read screen which displays hits and reaction times.

Perfect to use with the SureStrike™ Laser Cartridge to improve your skills and marksmanship with any firearm. Precision shooters, long-range shooters and hunters can practice their accuracy indoors and even in a shaded outdoors.

The LaserPET™ includes a set of five target cards for a changeable hit zone, tripod and AAA batteries.

TAKE DRYFIRE TO THE NEXT LEVEL WITH RECOIL ENABLED TRAINING

Safe and Realistic Firearms Training – Anytime, Anywhere.

Take your training to a whole new level. Many shooters find recoil enabled training to be the most realistic way to maintain and perfect their shooting skills indoors, without a live range.

Force on force airsoft training is commonly used by the military and Law Enforcement and has become more popular among shooters due to its low cost, full blow back, and automatic reset of the firearm. The realistic look and feel of the firearm enforces muscle memory and enhances safety skills of the shooter.

Using a recoil enabled pistol or rifle adds realism to training and is the best way to train for real life situations, with simulated sound and recoil.

Our Recoil Enabled Firearms, are completely safe, and the training cost a fraction of a day at the range with live ammo training.

Pair one of the Recoil Enabled firearms with the Laser Ammo I-MTTS reactive targets or Smokeless Range® and take your shooting skills to a whole new level.

All Lasers in this catalog comply with the latest
EU Eye-Safe directives.

TRAIN ANYWHERE WITH SURESTRIKE™ KITS

14

The SureStrike™ Laser Training Kits allow any level shooter to practice safe marksmanship and gun handling drills with up to 4 different calibers in their very own firearms.

All of the SureStrike™ Kits come standard with a convenient protective carrying case, red (visible) or infrared (invisible) laser cartridge, the patented UhrSecure™ safety pipe, safety extension, high visibility safety nut, caliber adapters, battery pack, and six reflective targets.

This makes it easy and convenient for any shooter to keep the equipment safe and secure while tossing it in your range bag or simply put it in your pocket.

The SureStrike™ Lasers are the most accurate and robust laser training aides available in the market. The laser cartridge is built with stainless-steel body, high quality glass lens, and action cap that controls the function of the laser. The action cap, used as a snap cap, will protect your firing pin with a warranty of 5,000 shots (or one year) guaranteed! This makes the SureStrike™ Kit the most versatile and safe training tool on the planet.

"REFILL" YOUR CARTRIDGE & CHOOSE DRYFIRE OR BORESIGHT WITH INTERCHANGABLE CAPS

A unique ability of the SureStrike™ training system is to be able to change the functionality and behavior of the laser cartridge according to your training needs. By using interchangeable Action Caps, each having a different program, the user can decide if they want to dry fire, a borsight or both.

This feature makes SureStrike™ the most versatile dry fire training system available today. The SureStrike™ Action Caps have a microprocessor controlled primer which activates the SureStrike™ and also performs as a snap cap, keeping the firing mechanism safe from damage while dry firing.

The SureStrike™ Vibration cap is not activated by firing pin and therefore it doesn't have the primer. Instead, it is specifically programmed and built for airsoft use with one of our airsoft adapters.

We guarantee all of our Action Caps for at least 5,000 shots, though, many shooters have reported thousands of extra shots from their SureStrike™ units. By simply replacing the Action Caps, the shooter can refill the SureStrike™ as many times as needed.

We Support the Shooting Sports!

Our products are being used by many competitor shooters around the world. Each of our products are designed to maximize a shooter's time training and save on cost by allowing the shooters to train more often in their convenience of their own home, spending less money on ammo. Our new Smokeless Range® pro line is built to replicate exact course of IPSC competition. Our Fast Draw Simulator is built to the highest requirements of the Fast Draw community.

WE ARE PROUD TO SPONSOR AND SUPPORT SOME OF THE BEST WORLDWIDE SHOOTERS
